

# Dedham Community House Summer Camp

**Week 1**

**June 22, 2018**

## **SHARKS, CUBS & JAGUARS**

This week the Sharks, Cubs, and Jaguars all formed one big group for the first week of camp. They had a lot of fun making friends with kids in other groups. They learned a lot about animals and their adaptations in Science, made fortune tellers and paper fans in Arts and Crafts, and made letters in Woodworking! On Friday some of the campers performed in a talent show during the camp-wide cookout!

## **MONKEYS, GOATS & WOLVES**

This week the Monkeys, Goats and Wolves learned about animals and how they adapt to the environments they live in during Science. In Arts and Crafts we made beautiful fans to help us cool off and also made magical fortune tellers. A few of us hit the target in Archery and finished our week practicing our dance for Friday's talent show. We are so excited for another week at camp!

## **PENGUINS, TIGERS & MOOSE**

The first week of camp was a blast! We combined 3 groups and got to see old friends and meet new ones! We had a lot of fun in the pool, playing world cup, and learning about habitats in Science. We can't wait for week 2 at DCH!
